SPECIAL EDITION 2021

## Southside Ave Park Phase 1 - Completed

If you're heading to the new Dallas Township Southside Avenue Park you will be sure to hear some excited voices and see some big smiles. Children and families from across the

Back Mountain and beyond have been visiting the new nature-based park and enjoying the fresh Autumn air and all the fun the park has to offer. The park offers slides, digging, an amphitheater, and climbing features. Dallas Township Supervisors would like to stress that climbing above the amphitheater is prohibited. Supervisors ask that park visitors keep the park clean and

ask that parents please supervise children while they're playing. No pets are permitted on the playground. The park is open from dawn to dusk. Dallas Township would like to thank EBI LLC for their prompt and professional work. If you have any questions about the park, please email: [info@dallastwp.org](mailto:info@dallastwp.org).

# Dallas Township Dedicates Salt Shed

Dallas Township Supervisors recently dedicated the new salt shed to retired Township Supervisor, Frank Wagner. Frank served as a Supervisor for 50 years. Township Supervisors were proud to dedicate the building to someone who made such an impact in our local community. Dallas Township received a DCED/LSA Grant to fund the project. The total cost of the site was \$385,441.61 and the grant was given in the amount of \$310,000.

The salt shed now meets the needs of winter maintenance for stock piling salt versus waiting for deliveries. Design, engineering and project management was provided by Douglas Trumbower and Associates Inc. The site contractor was Machiesky Construction, the building contractor for the project was Dutchman LLC, and the Electrical contractor was Delta Electrical.

DAMA was also able to incorporate an MS4 Stormwater project at the site. The township thanks everyone involved for their hard work and efficient timeline. The previous shed held 100 tons of salt and this new shed holds approximately 1,000 tons. The event was attended by Senator Lisa Baker and PA State Representative, Karen Boback as well as the Township Road Department and Township Supervisors and Management Staff.
